Clark Totalift, covers more than 120,000 individual parts designed for 20 exclusive designs of lift trucks and automated equipment. Your regional Clark Seller is your complete source for availability of all your parts requirements provided by Clark Totalift.

Clark's phenomenal Parts Distribution Centers are conveniently located in Louisville, Kentucky, which serves both their consumers and dealers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing manufacturers. Driven to offer the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to enhancing output and benefiting performance.

Clark Totalift has a really impressive worldwide support network. With over 550 locations globally, dealer representation in over 80 nations and 230 locations in North America, their high level of dedication to their clients predominates the materials handling market.

By revolutionizing the operator restraint system protection feature, Clark proudly remains a leader of innovation in the industrial equipment and automated lift truck industry. This exceptional dedication to safety is now a standard feature on every lift truck.

Clark has a unrelenting objective to have the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be globally certified with quality standard ISO 9001 in all of its manufacturing facilities. Additionally, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be ready for any number of environmental limitations, thus placing them in a prevailing industry position.

Clark has preferred the very economical and beneficial system of "Lean Manufacturing" for its assembly plants and use of resources. This system was developed to acknowledge the most efficient approaches of production plant stewardship and ensuring maximum efficiency. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers communicate together to develop the efficiency and brilliance of their merchandise while minimizing expenses. The new value engineering program combines modern product growth and provides improved client support and service within the industry.
