

Spreader Bar for Forklift

Spreader Bars for Forklift - Proudly operating since nineteen seventy four, ELME Spreader AB is the largest independent spreader maker around the globe. They have been a devoted manufacturer of spreaders designed for various applications like for example the swap bodies, trailers and handling of containers.

ELME now has more than a hundred and twenty five workers with all engineering is done in house by utilizing all of the most up-to-date FEM tools and CAD systems. Their spreaders are supplied to reach straddle carriers, lift trucks, gantry, quayside, ship-to-shore cranes and stackers across the globe.

The product series of ELME comprise many spreaders intended for a variety of container and trailer handling operations. A few of their inventory include: Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail Mounted and Rubber Tired Gantry Cranes plus a huge array of additional parts.

ELME production and manufacturing is performed in a highly automated purpose built factory. In the year 2008, they made more than one thousand one hundred fifty spreaders by means of using top quality elements to ensure dependability and high standards while offering reasonable prices. Major characteristics of ELME comprise design simplicity, market feedback and innovative modular spreader concept.
