

Meritor Parts

Meritor Part - Meritor is a premier international dealer which is proudly established on a 100 year custom of service and quality. They concentrate on different modules, integrated systems and parts to original machinery manufacturers and the aftermarket for the transportation and industrial trades.

Meritor values the requirements of their customers to guarantee their success while priding itself in the company's unique energy and thinks this output of energy to be their aggressive advantage in their international operations. Meritor begins with a tradition that values diversity of people and their broad thought processes. Operating in 19 nations and hiring more than eleven thousand two hundred individuals, Meritor promotes collaboration and innovation among a team of knowledgeable professionals.

Meritor strongly believes in only hiring future focused workers. These top-caliber individuals could rapidly get used to to changing surroundings and freely demonstrate the level of performance and commitment needed to be able to obtain results for the competitive market environment. The company empowers their teams to make sound business decisions so as to enhance the overall success of the company. In return, Meritor offers all of their staff various possibilities for personal and professional development.

Their Advanced Engineering team is at the forefront of parts and system engineering that include axles, drivelines, braking and suspension systems intended for medium and heavy duty trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the whole Asia Pacific region. This team is even responsible for supporting the needs of their international engineering staff.

The Quality team at Meritor is a dynamic and customer-focused group which is devoted to ensuring optimum progress at their production plants and aftermarket distribution facilities that are located on 5 continents and in 19 nations.

The supplier development network is particularly located so as to support new business growth. Regional teams are supported by international initiatives, quality systems and centralized specialties in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making in each and every aspect of the business. The DFSS or also known as Design for Six Sigma ensures product reliability in each region. The team is also comprised of transactional Green Belts who make use of Six Sigma tools to business processes and apply lean methods.
